

AEDY Team Updates-

AEDY Providers and Sending LEAs are **required** to attend the Annual AEDY Conference- **April 21, 2020**.

The Annual AEDY Conference 2020 will provide participants with a comprehensive review of the updated requirements for Compliance regarding Alternative Education for Disruptive Youth Programs in Pennsylvania.

Topics will focus on procedures for placement in AEDY Programs, MTSS for Positive Behavior Supports, Individual Positive Behavior Supports, EL Services and Special Education supports.

<https://www.pattan.net/Events/Conferences/Course-2703/Events/Session-34316>

AEDY Providers:

Students who are in placement must be accepted by the Provider. This begins the Student's calculation of their 45-day placement.

Individualized Positive Behavior Support Plans/45-Day Formal Periodic Reviews/Transition Plans:

The team has created one document for the field's use (sample form on Formal Periodic Review Page). It includes all three of these required forms, which will streamline documentation of the Individualized Positive Behavior Support Plan- Progress Monitoring of Behavioral Goals- leading to the Formal Periodic Review. Once the student is ready for transition, the same document will outline the supports that made the student successful in the AEDY Program and be replicated in general education. This document must be uploaded after each review meeting in the system.

Transition Back to LEA: General Education-

LEA users now have an option to request a referral transfer to a new LEA or Provider (in the event a student moved to a new home district). This link is in the top center of the Demographics section of a referral. Click that link and follow the steps on the following page to submit a transfer request.

As students transition back to general education we realize that the Student may need a time to transition (i.e. student goes back ½ days to ease the transition). The time a Student spends in "Transition to LEA" will be calculated and reported, just as is the 45-day placement. Students have the right to return to general education, as soon as they have met their behavioral goals in the AEDY setting.

Pre-Placement Demographic Section-

Student Race is a required field in order to submit a referral to a provider.

Manifestation Determination is a required field in order to submit a referral to provider when the Student has a disability.
